

l:/Sudoku-master/Sudoku  
/Functional Version/qpushbuttongrid.cpp

```
graph TD; A["l:/Sudoku-master/Sudoku  
/Functional Version/qpushbuttongrid.cpp"] --> B["qpushbuttongrid.h"]; A --> C["ui_qpushbuttongrid.h"]; B --> D["QWidget"]; B --> E["QPushButton"];
```

The diagram illustrates the dependencies of the source file `qpushbuttongrid.cpp`. It is located at the path `l:/Sudoku-master/Sudoku/Functional Version/`. The source file depends on two header files: `qpushbuttongrid.h` and `ui_qpushbuttongrid.h`. The `qpushbuttongrid.h` header file, in turn, depends on the Qt classes `QWidget` and `QPushButton`.

qpushbuttongrid.h

ui\_qpushbuttongrid.h

QWidget

QPushButton
